

Empower your team to automate processes using low-/no-code tools.

Every business has those repetitive tasks that, while vital, take up huge amounts of your people's time.

Power Automate seeks to eliminate those jobs, freeing up your team to focus attention elsewhere, and remove human error.

Designed for anyone with any level of experience to get started, you can design automations from one of thousands of templates or start from scratch to produce bespoke flows of information within your business.

Discover how to automate your mundane and repetitive tasks

**call today
0808 164 4142**

With hundreds of pre-built connectors, finding and connecting the data you need to automate is easy. Quickly process forms using document automation, process approvals, detect images and text, or create with prebuilt models

Power Automate is accessed through familiar tools like Teams or web browser that your people are already comfortable with.

Why choose Power Automate?

- 1** Boost efficiency
- 2** Eliminate human error
- 3** Deliver reliable data right where it's needed
- 4** Automate mundane tasks
- 5** Free up employees to focus on more important tasks
